

Dear Faculty, IGERT Fellows, IGERT Associates and Students,

You are cordially invited to attend a Seminar presented by Belinda Le. Please plan to attend.

Belinda Le

IGERT Fellow

Date: Friday, March 6th, 2015

Location: WCH 216

Time: 11:00am

"Review: Directing Cell Fate for Regenerative Medicine.

Abstract:

Regenerative medicine offers the hope for disease research and therapy to create readily available sources of medicine. This presentation will go over a review of directing cell fate for regenerative medicine. This presentation will review two main approaches in order to achieve the ability to direct cells to differentiate into desired cells. The two methods to be discussed will be directed differentiation and cell reprogramming.
